

25 YEAR RE-REVIEW

3-5048.

4 December 1952

Mr. William P. Bundy
Office of National Estimates

Dear Mr. Bundy:

I wish to commend you for the superior job that has been done in the production of the National Intelligence Digest. I have shown this document to the President and certain other high-ranking government officials, all of whom have expressed the highest praise for the Digest.

I commend you personally for the part that you played in carrying this entire project through -- the coordination with O/CI, O/NE and the Department of State; the editing and revising for which you alone were ultimately responsible; the insuring that difficult deadlines were met; your assurance of superior map and graphics work; and the splendid substantive content and over-all appearance of the finished Digest.

A copy of this commendation will be placed in your official files.

Sincerely,

/s/ WALTER B. SMITH
 Director
